DETAILED ACTION

Response to Amendment

1. Amendments to claim 1 have been entered in the above-identified application. **Claims 1-8 are pending and under consideration.**

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-8 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for ***a cotton substrate coated with an admicellar hydrophobic polystyrene coating thereon such that the cotton substrate having the admicellar hydrophobic polystyrene coating thereon has an air permeability substantially the same as the air permeability of uncoated cotton***, does not reasonably provide enablement for ***any substrate coated with any admicellar hydrophobic polymer coating thereon such that the substrate having the admicellar hydrophobic polymer coating thereon has an air permeability substantially the same as the air permeability of an uncoated substrate***.

The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to practice the invention commensurate in scope with these claims.

Paragraph 0066 of the as-filed Specification and Table 1 clearly show that only untreated and hydrophobic cotton fabrics were used in this test and that the results of air permeability tests show that both untreated cotton and hydrophobic cotton had almost the same air permeability indicating that the polystyrene coated on the fabric did not block the air from passing through the fabric.

Hence, the scope of the claims is not commensurate with the showing in the original disclosure.

Response to Arguments

3. Applicant's arguments with respect to claims 1-8 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
